17th International Workshop on Langerhans cells
– and related myeloid cells of the skin
8-9 JUNE 2023, PARIS, FRANCE
(Venue at the Hôpital Necker site, 156 Rue de Vaugirard, 75015 Paris)

Welcome General Info Invited Speakers Abstracts and Registration Sponsors

Welcome

Ladies and gentlemen,
Friends and colleagues,
Langerhans and dendritic cell researchers all over the world,

We are happy to be able to keep up the tradition and announce that the
17th International Workshop on Langerhans Cells (LC2023)
will be held in Paris on 08-09 June 2023,
in association with the Institut Cochin.
To ensure adequate space for lectures, posters and the industrial exhibition,
LC2023 will take place at the Hôpital Necker venue, 156 Rue de Vaugirard, 75015 Paris.

As in the previous years, we wish to make LC2023 an event that allows ample interactions
between the leaders in the field and young researchers, as well as between researchers and industry.
We are doing our best to ensure that LC2023 will again be a very fruitful scientific meeting,
and that it will remain the major international convention in the field of LCs research.
